SUMMARY

Product designer with 3+ years of front-end development experience in HTML, CSS, JavaScript, and React. Now focused on accessible, responsive product design across web and mobile. Skilled in user research, information architecture, design systems, and Figma prototyping to turn complex flows into clear, usable interfaces. Redesigned websites for First Nations and nonprofit clients, contributing new designs and using front-end skills to correct discrepancies directly in code.

SKILLS

- **Design Tools:** Figma, Adobe Creative Cloud (Photoshop, Illustrator, InDesign), WordPress
- **Design Skills:** User Research, Information Architecture, Wireframing, Prototyping, Usability Testing, Design Systems, Responsive Design, Accessibility (WCAG)
- **Technical Skills:** HTML/CSS, JavaScript, React, GSAP, TailwindCSS/Bootstrap, Git/GitHub
- **Soft Skills:** Cross-functional Collaboration, Client Communication, Problem-solving, Attention to Detail

WORK EXPERIENCE

Product Designer Intern | Burst! Creative Group — Creative Digital Agency May 2026 - Jul 2026

- Redesigned The Children's Foundation website, restructuring the information architecture of 20+ navigation items into a clearer hierarchy to simplify wayfinding.
- Expanded the existing TI'etinqox website design with new pages and sections, refining visual consistency across the site.
- Corrected design-to-code discrepancies by editing WordPress front-end code directly, avoiding unnecessary developer handoffs.
- Collaborated with the founder, PMs, and designers, aligning on design direction and refining work through regular design critiques.

Front-End Developer | Eugene IT Services — Enterprise IT Solutions Company Sep 2018 - Jun 2021

- Designed and developed screens for an internal HR dashboard system, collaborating with a Tableau team to embed data visualizations that turned scattered data from 16 group companies into clear insights.
- Developed the home screen of Home Day's mobile app for its launch, building a swipeable carousel of five panels with HTML, CSS, and JavaScript.
- Maintained and enhanced Ace Hardware's website and app, developing and updating features and verifying data handling through the database.
- Worked cross-functionally with design, marketing, and PM teams to clarify requirements and ensure accurate implementation.

Front-End Developer Intern | Eugene Corporation — Building Materials Company Feb 2018 - Aug 2018

- Resolved system issues for a mobile B2B sales app used by sales staff, keeping daily operations running smoothly.
- Redesigned the mobile B2B sales app with a focus on usability, creating mockups and presenting the proposal to the team lead.
